

Location: Phi Phi Islands
Reference: T2

Phi Phi Don and Phi Phi Leh are two (2) awesome sisters languishing in the sea like a pair of emerald jewels studding the aquamarine waters of Phang Nga Bay. The islands are 3 hours east of Phuket and easily accessible by ferry.

HIGHLIGHTS

You will find that the spectacular limestone cliffs above the water become sheer drop-offs and craggy coral encrusted landscape under the water with a rich and colorful diversity of marine life and even whale sharks are known to visit. Phi Phi is famous for colourful soft coral walls.

It is common to see green and hawksbill turtles, black and white banded sea snakes, squid, angelfish, crocodile long-toms, black-tip reef sharks and leopard (zebra) sharks.

ACCOMMODATION

There are a large number of resorts/hostels on the island.

BEST SEASON

The waters are at their warmest and clearest during February to May and the tourist high season is from November to April.
