

Location: Pulau Tenggol
Reference: M6

Pulau Tenggol is cited as the "Best Diving in Peninsula Malaysia" by the Asian Diver Magazine 2002 Annual Edition. The island lies 26 km off the coast of Kuala Dungun in the state of Terengganu.

HIGHLIGHTS

The excellent visibility of up to 30 meters, varied seascape from submerged rocks, large boulders to sandy patches and great marine life makes this one of the best diving locations in Malaysia.

We are always impressed by the numbers of sharks, rays, nudibranchs and a hard and soft coral. Whale sharks and mantas have been sighted during the season.

Diving here is for all levels from novice to experienced thrill seekers who enjoy the deep dives, drift dives and wrecks. Our favorite sites are Tokong Timur, Tokong Laut and Tanjung Api where strong currents, deeper waters and pelagic prevail. The Five Sisters are five wooden trawlers sunk in the mid 90's offer wreck diving at its best.

ACCOMMODATION

Tenggol Aqua Resort is a well-equipped resort. Rooms are either beach front or hill side natural timber bungalows with air conditioners and attached bathrooms.

Alternatively you can stay on the mainland at the five-star Tanjung Jara Resort & Spa. You will be picked up from the hotel each morning and ferried to the island which takes only 30-40 minutes.

GOD's EXPERIENCE

We have been diving Pulau Tenggol for the last 10 years and our experience is invaluable to ensure that you get what you pay for. 'Discovery Divers' on the island offer good dive plans and service.

BEST SEASON

Due to the eastern monsoon, the season is effectively limited to the period between the beginnings of March until late October. Outside this period the seas can be very rough with currents that make swimming dangerous.

OTHER ACTIVITIES

Activities range from snorkeling, jungle trekking to just basking under the sun on the white sandy beach.

PACKAGE COST

RM 790 ex Kuala Dungun for a 3 day 2 night package including 5 boat dives and all inclusive accommodation at the Tenggol Aqua Resort.
