Journeys • Experiences • Courses

**Location:** Sangalaki, Indonesia  
**Reference:** I6

The Island of Sangalaki and its' surrounding reefs are protected as an Indonesian Marine Park. Without the destructive effects of explosives and cyanide fishing, Sangalaki has remained a pristine example of an untouched tropical marine ecosystem.

Unlike other Island resorts in the area, Sangalaki has its emphasis on Conservation & Ecology; less than 3% of the Island is built upon, leaving the Tropical Rainforest to its' natural inhabitants and visiting guests.

### HIGHLIGHTS

Sangalaki is the prime nesting site for Green Sea Turtles in South East Asia and is the world capital of Mantas.

Sangalaki is surrounded by a shallow lagoon and the reefs start a distance out from the Island. Most Sangalaki dive sites are shallow with the reef sloping gently. The hard and soft corals here are amazingly prolific with over 500 species present around the island. It is a good place to see both large and small marine creatures.

### ACCOMMODATION

Maratua Paradise Resort, Derawan Dive Resort or Live-On-Board.

### BEST SEASON

Diving is great all year around.
